

# STARLINK FOR BUSINESSES

**High-Speed, Low-Latency & Reliable Internet**  
**Connecting your businesses across every sites even in the most remote locations**

As an authorized Starlink Reseller & Integrator, REDtone specializes in delivering enterprise-grade Satellite Managed Internet Services throughout Malaysia. Through this strategic partnership, REDtone offers clients a comprehensive and fully managed service encompassing customized monthly subscription plans, the expertise of professional engineering services, dedicated account manager, service deployment, round-the-clock local technical and customer support, and the adaptability of seamless integration with cutting-edge technologies.

Powered by the world's largest constellation of low-earth orbit (LEO) satellites, Starlink catapults connectivity to new heights, offering reliable high-speed network coverage reaching up to 220Mbps. Starlink Business excels in providing accelerated internet speeds, heightened throughput, and unparalleled reliability. With global coverage, Starlink ensures seamless connectivity to any site, irrespective of its remote location, delivering high-speed internet connectivity.

This comprehensive and holistic approach is meticulously designed to offer one of the most robust connectivity solution. It serves as a testament to REDtone's steadfast commitment to delivering superior connectivity solutions and an unparalleled customer experience for businesses.

Elevate your connectivity standards with REDtone Starlink Services — where excellence meets innovation
